## **Partial Transcript of Mayor Jerry Sanders 10 October 2007 Press Conference**

Today my office will release a portion of the public documents related to events preceding the Mount Soledad Landslide on Wednesday, October 3<sup>rd</sup>. In the name of transparency and equal access to public documents, I thought it was important to get these documents out just as soon as possible...The documents being released cover July 18<sup>th</sup>, 2007, through the present. While not complete, the documents provide a snapshot of how the City responded to the concerns of homeowners about soil movement and utility separations in the area. Additional documents within and outside of the timeframe I just noted will be released in the coming weeks...

The documents will form part of the investigation that we've launched into the possible causes for the landslide. As you know, we have a forensics geotechnical team on site to evaluate that. The investigation will also detail the City's reaction to the events that preceded the slide. I have and will remain committed to maintaining an open mind. And I would also ask the public not to reach premature judgments or conclusions about the causes of landslide...

Well, I believe that the City of San Diego - the Mayor and the City Council - need an outside attorney to advise us on these issues because I believe the City Attorney made comments from minute one, day one, and continues to make those comments in the public that I don't think serve and protecting the taxpayer's best interest and the City's best interest.

I think we need an objective third party that can come in and help us prepare a case for whatever eventuality comes forward. I think that what we are looking forward to is an objective investigation that will determine what the causes of those were. It appears to me that the City Attorney has already decided what his course of action is, one that he has not consulted with the [City] Council on, that he has not consulted with me on. We absolutely need to have legal advice on this and we are not receiving it.

I think there is a couple of issues that we need somebody that is not so immersed in the event. We have to rely on somebody to give us legal advice. We are not getting that on some issues. And it makes it very difficult when the City Attorney has taken a position by himself and then we are supposed to figure out what the legal advice is on that, when the City Attorney has already determined the course of action, not asking us what we think about it. So, we need objective advice. We need good, sound legal advice on some issues.

FOR IMMEDIATE RELEASE

October 10, 2007

**OFFICE OF MAYOR JERRY SANDERS  
PRESS RELEASE & ADVISORY**

**SANDERS RELEASES PUBLIC DOCUMENTS  
RELATED TO EVENTS PRECEDING SOLEDAD LANDSLIDE**

*Documents Form Part of Investigation*

In furtherance of the principles of transparency and equal access to public information, Mayor Jerry Sanders today will release a portion of the public documents related to events preceding the Mount Soledad landslide on Wednesday, October 3<sup>rd</sup>. The documents being released cover July 18, 2007 through the present. As best can be discerned at present, July 18<sup>th</sup> is the first report of an activity at the site in the most recent time period. While not complete, the documents provide a snap-shot of how the City responded to the concerns of homeowners about soil movement and utility separations in the area. Additional documents, within and outside the time frame noted above, will be released in the coming weeks.

The documents will form part of the investigation that the Mayor has launched into the possible causes for the landslide. The investigation will also detail the City's reaction to events that preceded the slide, many perhaps unrelated. The Mayor has consistently asked everyone to maintain an open mind and not to reach premature judgments or conclusions. "I would ask that everyone suspend judgment on this subject until we are able to thoughtfully and deliberately determine, in an objective fashion, the circumstances that led to this catastrophic failure," said Mayor Sanders today.

**MEDIA ADVISORY**

**What:** Sanders Releases Documents Related to Events Preceding Landslide (July 18 - present). Additional documents will be released in the following weeks.

**Media:** Media wishing a set of the documents can come to the receptionist in the Mayor's office today at 2pm. One copy will be given to each news organization. This is for accredited media ONLY.

**General Public:** The same set of documents will be available to the public through the City Clerk's office beginning tomorrow morning, Thursday, October 11.

Where/ When:	<u>For Media pick-up:</u> Mayor's Office City Hall 202 C Street, 11 <sup>th</sup> Floor Today, Wednesday, October 10 2pm	<u>For General Public:</u> City Clerk's Office City Hall 202 C Street, 2 <sup>nd</sup> Floor Tomorrow, Thursday, October 11 [A copy will also be posted on the city's website at <a href="http://www.sandiego.gov">www.sandiego.gov</a> ]
-----------------	---	---

Following this document is a summary of some of the events that preceded the slide.

Working Together to Engineer a Better Tomorrow

>>> Richard Haas 7/19/2007 11:26:42 AM >>>  
Hi Thyme,

Jim Barrett, the Director of the Water Department, is researching this problem and is planning to call Mr. Crab back.

Jim or Alex Ruiz (Assistant Director) will send you an e-mail and let you know the summary of their discussions.

Rich

>>> Thyme Curtis 7/19/2007 10:34 AM >>>  
Hi Rich,

A constituent named Tom Crab (619.997.4359, 5703 Soledad Mtn Road) just called and is very concerned about Soledad Mtn Road, specifically in front of 5715 Soledad Mtn Road. He said that the street has been sinking and cracking for the past few months, and back in March 2007 he reported a crack in the street that was subsequently patched. Last night a pipe cracked and is currently being fixed by city crews, but Mr. Crab believes something more is going on underneath the street, that it is sinking or moving. He's hoping a geologist or engineer can take a look before something major happens.

Thanks,

Thyme
