Section 141: City Employees' Retirement System

The Council of the City is hereby authorized and empowered by ordinance to establish a retirement system and to provide for death benefits for compensated public officers and employees, other than those policemen and firemen who were members of a pension system on June 30, 1946. No employee shall be retired before reaching the age of sixty-two years and before completing ten years of service for which payment has been made, except such employees may be given the option to retire at the age of fifty-five years after twenty years of service for which payment has been made with a proportionately reduced allowance. Policemen, firemen and full time lifeguards, however, who have had ten years of service for which payment has been made may be retired at the age of fifty-five years, except such policemen, firemen and full time lifeguards may be given the option to retire at the age of fifty years after twenty years of service for which payment has been made with a proportionately reduced allowance.

The Council may also in said ordinance provide:

- (a) For the retirement with benefits of an employee who has become physically or mentally disabled by reason of bodily injuries received in or by reason of sickness caused by the discharge of duty or as a result thereof to such an extent as to render necessary retirement from active service.
- (b) Death benefits for dependents of employees who are killed in the line of duty or who die as a result of injuries suffered in the performance of duty.
- (c) Retirement with benefits of an employee who, after ten years of service for which payment has been made, has become disabled to the extent of not being capable of performing assigned duties, or who is separated from City service without fault or delinquency.

Section 142: Employment of Actuary

The Board of Administration hereinafter provided, shall secure from a competent actuary a report of the cost of establishing a general retirement system for all employees of The City of San Diego. Said actuary shall be one who has had actual experience in the establishing of retirement systems for public employees, and his position shall be considered one requiring expert or technical training within the meaning of subdivision (k) of Section 118 of Article VIII of this Charter.

Section 143: Contributions

The retirement system herein provided for shall be conducted on the contributory plan, the City contributing jointly with the employees affected thereunder. Employees shall contribute according to the actuarial tables adopted by the Board of Administration for normal retirement allowances, except that employees shall, with the approval of the Board, have the option to contribute more than required for normal allowances, and thereby be entitled to receive the proportionate amount of increased allowances paid for by such additional contributions. The City shall contribute annually an amount substantially equal to that required of the employees for normal retirement allowances, as certified by the actuary, but shall not be required to contribute in excess of that amount, except in the case of financial liabilities accruing under any new retirement plan or revised retirement plan because of past service of the employees. The mortality, service, experience or other table calculated by the actuary and the valuation determined by him and approved by the board shall be conclusive and final, and any retirement system established under this article shall be based thereon. Funding obligations of the City shall be determined by the Board on an annual basis and in no circumstances, except for court approved settlement agreements, shall the City and the Board enter into multi-year contracts or agreements delaying full funding of City obligations to the system. When setting and establishing amortization schedules for the funding of the unfunded accrued actuarial liability, the Board shall place the cost of the past service liability associated with a new retirement benefit increase on no greater than a fixed, straight-line, five year amortization schedule. Effective July 1, 2008, the Board shall place the cost associated with net accumulated actuarial losses on no greater than a fifteen year amortization

schedule and the Board shall place the benefit associated with net accumulated actuarial gains on no less than a five year amortization schedule. Notwithstanding the above, the Board shall retain plenary authority and fiduciary responsibility for investment of moneys and administration of the system as provided for in article XVI, section 17 of the California Constitution. The setting and establishing of amortization schedules by the Board pursuant this section is not intended and shall not be interpreted to preclude the City from issuing pension obligation bonds or other similar instruments containing repayment terms exceeding fifteen years.

- (4) Each member of either the Fire or Police Department who is entitled to retire after 20 years of aggregate service with the City shall receive a pension credit of 2 ½% of his final compensation for each year completed at the effective date of said ordinance, but in no case shall such credit exceed 50 % of such final compensation. For each year completed after the effective date of said ordinance the member shall be credited with 1/60th of his final compensation. - (6) No member of either the Fire or Police Departments transferred pursuant to the provisions of this Article of the Charter shall be required to contribute in excess of 8% of his total salary; and each member so transferred shall be classed as a safety member of a special class and shall be entitled to all of the service credit earned by such member in the Police and Fire Retirement System up to the date of transfer without further contributions from said member because of absences prior thereto while serving in the armed forces of the United States.

Immediately upon the taking effect of the ordinance making the transfer of members into the City Employees' Retirement System, all of the provisions of Article IX not inconsistent with the hereinabove provided, together with any ordinance passed pursuant

thereto, shall be applicable to such transferred members, and the Police and Fire Retirement System heretofore created in 1947 is abolished, and except as prescribed by this amendment all benefits therein authorized are canceled.
